WEEKLY STATUS REPORT – MARCH 3rd ELECTION

This is the second report in a series of pre-election status reports to inform your Board and the public of our preparation for the March 3rd Presidential Primary Election. The information and data included connect to the County’s goals of “Operational Effectiveness” and “Community Support and Responsiveness.” Additionally, the reports support the Department’s ongoing commitment to fair, accessible and transparent election services for the citizens of Los Angeles County.

The reports include updates on important activities related to implementation of the Voting Solutions for All People (VSAP) initiative, administering the election and provide statistics related to those activities. The reports focus on key areas of the election process: status of Vote by Mail (VBM) ballot mailing; Sample Ballot mailing; vote center worker recruitment/training; and voter education/community outreach. In addition, the following Highlights section references special projects or significant issues to call to your attention.

Highlights

Kick-Off of Early Voting Period (February 22nd and 23rd)

This weekend we launched the new voting system and kicked-off the start of the 10-day early voting period. Vote Centers began opening Saturday, February 22nd, and continue to remain open through Election Day with more locations opening February 29th through the final four days of voting.

While our launch was not without hiccups and implementation issues, the new voting model is now underway. Election workers – many who are county employees – performed well undertaking the new procedures, learning new equipment and responding to challenging logistics and facility issues. Saturday was a bit of a mixed bag. On one hand, the new equipment functioned well and many who used it commented on positive experiences, as intended. The rougher side dealt with logistics, facilities and coordination issues; which improved over time during the day and into the second day of operations. It is a demonstratable benefit to have more than a single day to deliver voting services to an electorate and geographic area as large and diverse as ours.
With 232 Vote Centers open over the weekend, we had an estimated 5,596 votes cast on Saturday and an additional 4,092 today for a two-day estimated total of **9,688**. We will continue to promote these sites for voter activity throughout the week and then our expansion to more than 970 locations next weekend through Election Day.

- **Mobile and Flex Vote Centers**: In addition to the regular Vote Centers, we also launched our Mobile and Flex Vote Centers over the weekend delivering on the VSAP vision to meet voters where they are and to provide services to justice-involved voters and individuals experiencing homelessness.
  - Mobile Vote Center/Flex Vote Center (Saturday and Sunday) -- **LA Free the Vote** at the Central Regional Women’s’ Detention Facility in Lakewood and inside the jail providing registration and voting services for eligible inmates. More description on this historic program provided below.
  - Flex Vote Center (Saturday) – **The MAYE Center** in Long Beach *(people experiencing homelessness)*
  - Flex Vote Center (Saturday) – **St. Luke’s Episcopal Church** in Long Beach
  - Flex Vote Center (Saturday) – **Holy Chapel Missionary Baptist Church** in Compton
  - Mobile Vote Center (Sunday) – **Alhambra Farmer’s Market**
  - Mobile Vote Center (Sunday) – **Women Run LA Half Marathon** in Lake View Terrace
  - Flex Vote Center (Sunday) – **Black AIDS Institute**, downtown Los Angeles
  - Flex Vote Center (Sunday) – **City of Malibu**
  - Flex Vote Center (Sunday) – **Boeing Plaza** in Lancaster *(people experiencing homelessness)*

The Department has the full schedule of [Mobile Vote Centers](#) and [VSAP Flex Program Vote Centers](#) through to March 2nd listed on the website.

**LA Free the Vote Taskforce – Vote Center Programs at Century Regional Detention Facility (CRDF)**

On February 22nd and 23rd, the Department partnered with the LA County Sheriff Department (LASD) to provide expanded voting options for justice-involved voters and their family members. A Mobile Vote Center was stationed at the entrance to the Century Regional Detention Facility (CRDF) in Lynwood where arriving visitors (and LASD personnel) were encouraged to vote. Among the voters who voted at the Mobile Vote Center was Sheriff Alex Villanueva.

Through enhanced partnership with LASD, the Department was able to pilot a Flex Vote Center inside CRDF. This offered eligible voters who are incarcerated the option of in-person voting. The Department has had a long-standing program where eligible inmates may vote by mail (VBM). The Flex Vote Center was successfully piloted giving voters a choice for how they wish to cast their ballot. Along with education on general civic engagement and how to cast a ballot, the Department partnered with the League of Women voters to provide nonpartisan educational information. This development marked the first time in LA County where incarcerated voters were able to vote in-person while serving a jail sentence. (Pictures included below.)
On Sunday, February 23rd, to highlight the expansion of voting access and collaboration between the Department and LASD, we held a joint press conference where I was joined by Sheriff Villanueva. Coverage of the press conference is provided in the “Media” section of this report.

Poll Monitor Hotline

During each election, the Department operates a Poll Monitor Hotline among the numerous other phone banks. This hotline is used specifically by cities, community-based organizations (CBOs), political organizations and partisan campaigns who are active in the field while the polls are open. The expansion of the voting period has expanded operation of the Poll Monitor Hotline from one day (Election Day) to eleven days.

To educate and prepare observers for activities during the voting period, the Department held a Poll Monitor Hotline Orientation on February 15th. The orientation included the following:

- Overall program changes due to VSAP
- Review of the new Vote Center Look-Up Tool
- Review of the new Voter Participation Tool that replaced the Street Index
- Discussion of VSAP frequently asked questions
- Overview of election worker training
- How to report a problem and the Observation Report Log
- Rules related to electioneering
- Photography and media guidelines at a Vote Center

Cities, CBOs, political organizations and campaigns will continue to report issues to the Poll Monitor Hotline during the voting period and on Election Day.

Election Observer Program

A key facet of administering the election is transparency. Many of the activities related to implementation, tallying and post-election processing are open to the public. Beginning with processing of vote by mail ballots, which includes verifying signatures and preparing for tally, the public is encouraged to observe activities whether to review the process or learn about the operations. With the opening of the new Tally Operation Center in Downey and daily ballot inspection, ballot delivery and ballot preparation, there are additional opportunities for the public to observe. On Election Night, observable activities will continue as the majority of in-person ballots expect to be received.

During the post-election auditing and canvass period, the public may observe additional activities. These are activities necessary for finalizing the official vote totals and the 30-day canvass period. Such activities include processing of conditional voter registration, processing and tallying of provisional ballots, verification of voter signatures on VBM envelopes and tallying of VBM ballots, ballot remakes, the 1% manual tally and all other processes necessary for finalizing the election.
